***Disclaimer: I understand that equine massage and bodywork therapy is never a replacement for proper veterinary care. I understand that my practitioner will not diagnose conditions, attempt chiropractic adjustments, nor prescribe medications, or supplements for my horse. If my horse is currently being seen by a veterinarian for the recovery from illness or injury, I have cleared this work with him/her to ensure that massage and bodywork is at this time appropriate for my horse. During sessions Dawn may use different modalities to provide your horse with the best care and outcomes such as and not limited to trigger point therapy, red light therapy, kinesiology taping, acupressure and aromatherapy.***

***I, being the authorized agent or owner of this horse, have read and understand the information on this form. I understand that massage and bodywork is NOT a substitute for veterinary care, and that it is my responsibility to consult with a veterinarian regarding complementary care for my horse. I HEREBY RELEASE, WAIVE and FOREVER DISCHARGE the above named Equine Sports Massage Therapist, Dawn Roth, from all claims, demands, actions, and causes of action of any kind or nature. To the best of my knowledge, I have given Dawn all information of my horse's health that I believe massage and bodywork could effect, such as injuries, illness, surgeries, skin conditions and allergies. I agree to update Dawn with any new information before each session. Dawn reserves the right to reschedule an appointment if a horse is presenting any conditions or behaviors that would be contraindicative to massage and bodywork.***
